

API 1169 is steadily growing as a minimum requirement in our industry for inspection personnel

API has added additional dates for the API 1169 Pipeline Inspector Certification Exams for 2019. It is here and it is an industry standard. You will be required to have the API 1169 Certification in order to work most pipeline or pipeline related facility.

We strongly urge all inspectors to take the API 1169 Pipeline Inspector Certification. Prep courses are available through Velocity training. There is a download on our website, API 1169 Prep Course Material, that offers an exam preparation discount through EnSiteUSA.

The dates for the exam and the dates for the application deadlines remaining in 2019, are listed below.

Application Deadline

Exam Dates

June 14, 2019

August 16 – 30, 2019

October 4, 2019

December 6 – 20, 2019

If you have any questions about the program, or just need more information then please go the API 1169 Pipeline Inspector Certification Program or <http://www.api.org/pipelineinspector> to learn more.
